CAREER SUMMARY

Finance Systems and Enterprise Performance Management leader with experience delivering large-scale OneStream, Hyperion, and ERP transformation initiatives across manufacturing, healthcare, fintech, and global enterprise environments. Proven success leading enterprise planning, consolidation, integration, and data governance initiatives while partnering with executive leadership, finance, IT, and external implementation partners. Combines strong functional finance expertise with hands-on technical system knowledge to drive scalable architecture, operational efficiency, and strategic reporting modernization.

ONESTREAM KEY ACCOMPLISHMENTS

- 2023 — OneStream Case Study Customer Success Story showcasing the SmartWires implementation
- 2024 — St. Louis OneStream ROC presenter sharing the SmartWires implementation story
- 2025 — OneStream Splash Conference presenter sharing the BlueScope implementation story
- 2025 — St. Louis OneStream ROC presenter sharing the BlueScope implementation story
- 2026 — BlueScope OneStream Implementation Success Story

PROFESSIONAL EXPERIENCE

DRiV | Skokie, IL *July 2026 – Present*

Director of OneStream Administration

- Set the strategy and direct the stand-up of a dedicated OneStream platform for DRiV, setting the vision, roadmap, and investment priorities that position OneStream as the foundation of the company's financial systems.
- Lead AI initiatives across DRiV's finance systems, identifying, prioritizing, and deploying AI and automation use cases that modernize finance operations and strengthen decision support.
- Spearheading automation of the account reconciliation process through OneStream Reconciliation Control Manager (RCM) to reduce manual effort, strengthen financial controls, and accelerate the close.
- Establish the enterprise governance, security, and audit-ready control framework for the platform, including SDLC standards and change management built for long-term scale.
- Serve as executive liaison to finance leadership, IT, and implementation partners, aligning platform priorities with business objectives and driving accountability for delivery.
- Build the OneStream administration function, defining the operating model, support structure, and service standards for the DRiV finance organization.

BlueScope MFG | Kansas City, MO *July 2024 – July 2026*

Manager, Finance Systems and Data Quality

- Served as project owner for the enterprise-wide North America OneStream Planning rollout across 5 business units — leading the full implementation lifecycle from requirements and design through deployment and adoption, in coordination with Australian global leadership teams.
- Directed and managed system integrator relationship end-to-end, setting delivery expectations, overseeing deliverable quality, holding partners accountable to project milestones, and escalating issues to ensure on-time execution.
- Led organizational change management across finance and operations — including executive communication, stakeholder engagement, training design, and adoption strategies to drive a successful platform transition away from legacy Excel-based processes.

- Implemented scalable OneStream planning framework replacing 75+ Excel-based processes, architected for multi-business-unit expansion across the Americas and global operations.
- Serve as primary liaison between finance stakeholders, implementation partners, and technical developers, translating complex business requirements into scalable system architecture.
- Established governance, SDLC controls, testing protocols, and data quality standards to support compliant and sustainable financial systems operations.

SuperOrdinary USA | California *Aug 2023 – July 2024*

Senior Manager, Financial Systems

- Served as project owner for full end-to-end OneStream implementation — leading all phases from solution design and architecture through testing, deployment, and post-go-live stabilization.
- Managed system integrator relationship throughout the project, overseeing deliverable quality, enforcing accountability to timelines and budget, and driving resolution of issues to keep the project on track.
- Led change management and stakeholder communications across finance leadership and end users, ensuring alignment on scope, timeline, and go-live readiness.
- Delivered the full project on time and within budget through disciplined project governance, executive sponsorship engagement, and proactive risk management.
- Designed multi-cube application using extensibility for Accounts and Entities, incorporating People Planning module to support workforce planning alongside financial planning.

Smart Wires Inc. | Durham, NC *2022 – 2023*

Principal Financial Systems Admin — OneStream / NetSuite

- Executed full lifecycle OneStream implementation including requirements gathering, solution design, testing, deployment, and user enablement.
- Integrated OneStream Planning with NetSuite to streamline financial data flows and improve forecast accuracy across international operations.
- Supported multi-currency planning and reporting capabilities for global finance operations.

Centene Corp. | St. Louis, MO *2019 – 2022*

Manager, ERP Applications — Financial Systems Support

- Managed governance and operational support processes across enterprise financial systems environments including Hyperion, OneStream, and PeopleSoft.
- Led cross-functional support operations with direct and matrixed teams supporting large-scale enterprise finance applications.
- Oversaw production support for Hyperion, OneStream, and PeopleSoft, managing ServiceNow ticket queues across all three platforms. Delivered 99% SLAs for production support tickets.
- Managed 3 direct reports and 6 dotted-line reports for overall production support operations spanning 3 technologies.
- Facilitated OneStream user training during the enterprise conversion from Hyperion Planning to OneStream Planning.
- Implemented and managed Application Control Manager (ACM) within OneStream; participated in the ongoing OneStream ACM focus group.

Federal Reserve Bank | St. Louis, MO *2015 – 2019*

Hyperion Planning Administrator

- Supported FRB staff with Hyperion Planning rule conversion and Financial Reporting Studio report modifications.

Archer Daniels Midland | Decatur, IL *2013 – 2015*

HFM Administrator

- Managed HFM 11.1.2.2.3 EPMA application and all related processes supporting the close cycle, including security models, journal periods, and metadata.
- Streamlined metadata management from a 1-week process to 2.5 days through organized change management and updated audit tracking.
- Implemented the Long Range Planning module within Hyperion.

World Wide Technology | St. Louis, MO *2012 – 2013*

Team Lead, Financial Applications

- Managed and administered Hyperion Planning applications; collaborated with consultants to develop 45 enhancements for the 2013 budget application.
- Managed 3 direct reports supporting various Oracle GL financial applications.

Belden Inc. | St. Louis, MO *2007 – 2012*

Manager, Financial Systems

- Administered Hyperion Financial Management (HFM) for financial consolidation, including system changes, enhancements, rules/calculations, and data integrity.
- Developed and delivered Smart View reports that saved 3 full days of financial reporting at month end, covering planning, forecasting, actuals, and KPI/TTI metrics.

UniGroup Container Services | Fenton, MO *2006 – 2007*

Pricing and Business Analyst / IT Liaison

- Established a pricing model for Store and Move business that matched or beat 95% of competitor pricing, driving wins among price-sensitive customers.
- Supported 100% of internal build for the Store and Move business; reduced order entry time by 50% and increased visibility to sales and call center reporting by 85%.

Tyco Healthcare / Mallinckrodt *2004 – 2006*

Supervisor, Contracts and Analysis

- Supervised rebate administrators calculating and distributing payments to hospitals, GPOs, and individual facilities.
- Partnered with IS to develop and test system enhancements; created ad-hoc reports, queries, and macros to support continuous process improvement.
- Facilitated Sarbanes-Oxley compliance activities.

May Department Stores / Macy's | St. Louis, MO *1997 – 2004*

Progressive roles: CST Analyst → Financial Analyst → Sr. Financial Analyst → Supervisor MIS → Manager, Replenishment Reporting

EDUCATION

Southern Illinois University at Edwardsville (SIUE)

Bachelor of Science in Business Administration — Finance / Management *1997*
